Garbage and Linen Chutes system

Introduction:

Any- metal chutes are very convenient, simple and low cost method of controlling and disposing of refuse and linen in multi-story buildings.

Unit-Metal chutes meet the most stringent Requirements of Environmental health and safety.

The inclusion of chute cleaning systems, sanitizing and disinfecting units, sound damping and fire control equipment, within the overall design of chutes has greatly increased their usage throughout the world. Any-metal chutes are fabricated to conform to:

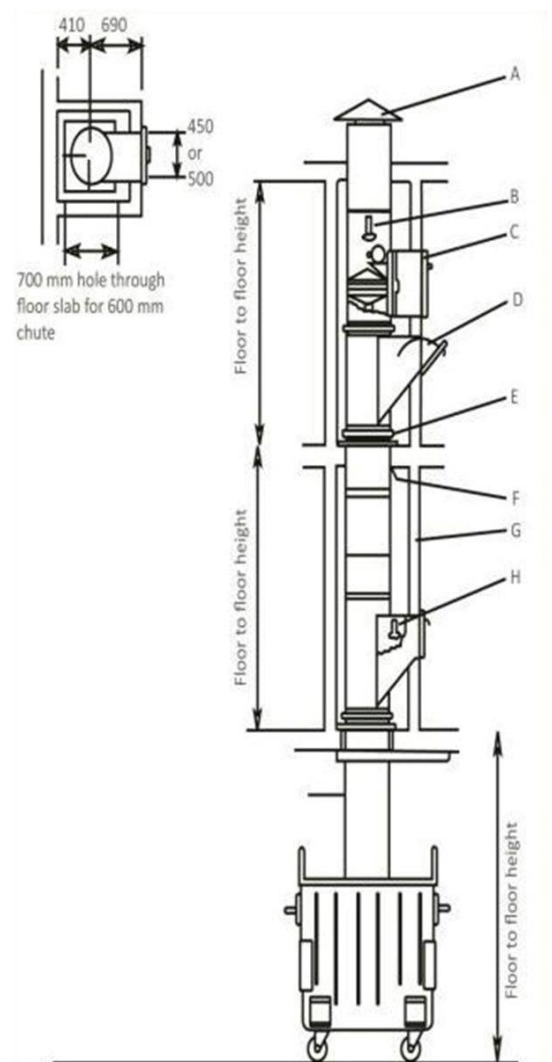

British Standards 1703: 1977, BS 5906: 2005 and VDI 2162
